

PROJECT DOCUMENTATION:
Strey Company

Name: Strey Company

Domain: www.strey.ba

Introduction

This documentation provides an overview of the Strey Company Wooden Doors website. The website is designed to showcase the company's range of wooden doors and provide an intuitive dashboard for administrative tasks.

Technologies Used

The Strey Company website is built using the following technologies:

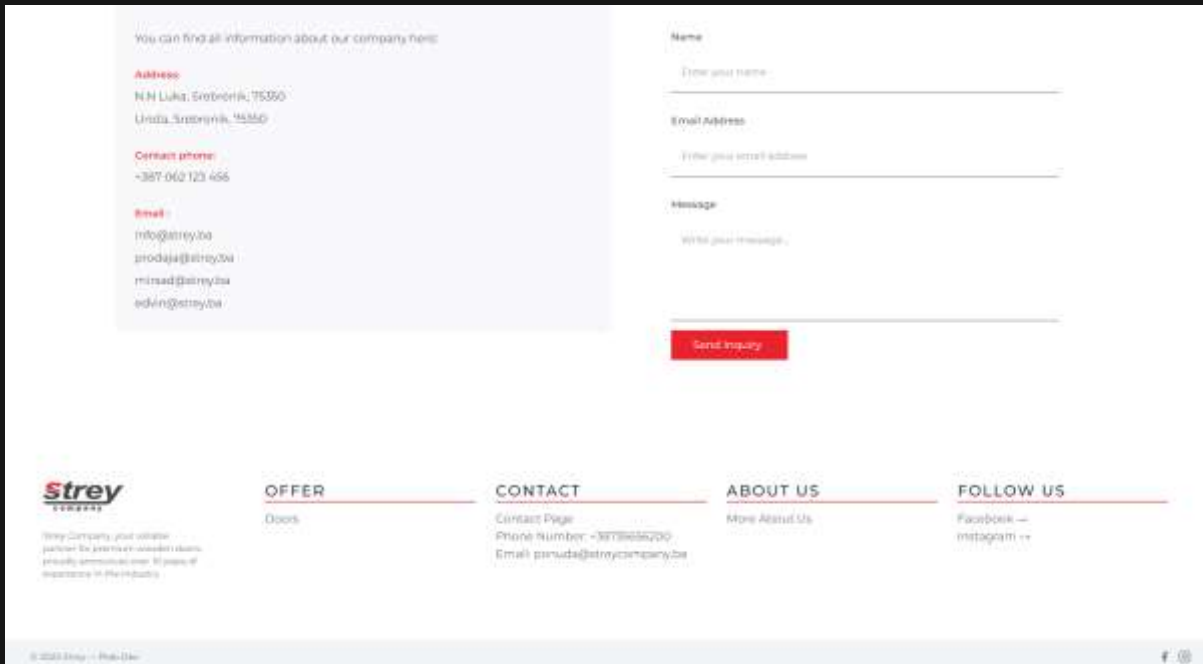

- **React:** A JavaScript library for building user interfaces.
- **Node.js:** A JavaScript runtime for building scalable network applications.
- **TailwindCSS:** A utility-first CSS framework for rapidly building custom user interfaces.

Features

- **Landing Page**
The landing page serves as the main entry point for clients visiting the website. It includes the following features:
Informative Content: Provides detailed information about Strey Company and its range of wooden doors.
Product Categories: Allows users to browse through various product categories.
Contact Form: Enables clients to submit inquiries or requests for more information.
- **Admin Dashboard**
The admin dashboard is accessible via secure login and is designed for administrative tasks. It includes the following features:
Product Management: Allows administrators to add new products along with details such as name, description, and images.
Category Management: Enables the creation and management of product categories.
Website Analytics: Provides insights into website usage, including user count and monthly views.

PROJECT DOCUMENTATION: Strey Company

STREY COMPANY ECO-CONSCIOUS COMPANY

Strey Company is committed to environmental preservation and strongly advocates for eco-conscious business practices. Our company implements numerous strategies to reduce its negative impact on the environment.

Firstly, we carefully select raw materials for our wooden products. We use high-quality materials that are environmentally friendly and sourced from sustainable origins. This allows us to support responsible forest management and reduce negative effects on natural biodiversity.

Secondly, we employ advanced technologies and innovative production processes that minimize emissions of harmful gases and optimize energy consumption. Our modern facilities are equipped with efficient filtration systems and recycle waste, reducing pollution and resource consumption.

Thirdly, we actively promote recycling and waste reduction. Through measures like reusing and proper disposal of waste materials, we strive to minimize the amount of waste ending up in landfills.

When you choose Strey Company, you can be sure to receive high-quality doors that are produced with care for the environment. Our dedication to eco-friendly values makes us the right partner for those who seek to combine quality, style, and environmental responsibility.

Have You Checked Out Our Door Collection?

We specialize in crafting the latest and highest-quality door models made from the finest wood, perfectly fitting your home or business space. Our range of doors includes a wide selection of classic and modern models, so you will surely find something you'll love.

We continuously add new door models to our collection to provide you with the latest trends and the best quality. Our doors are extremely durable and long-lasting, produced with meticulous quality control.

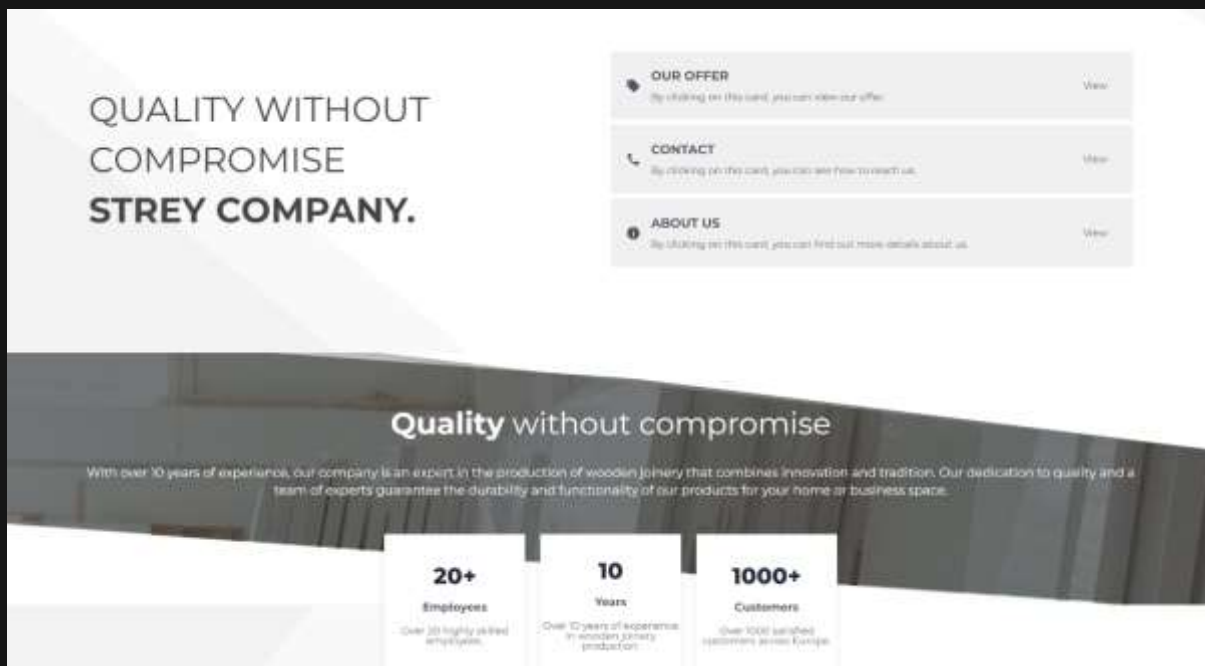

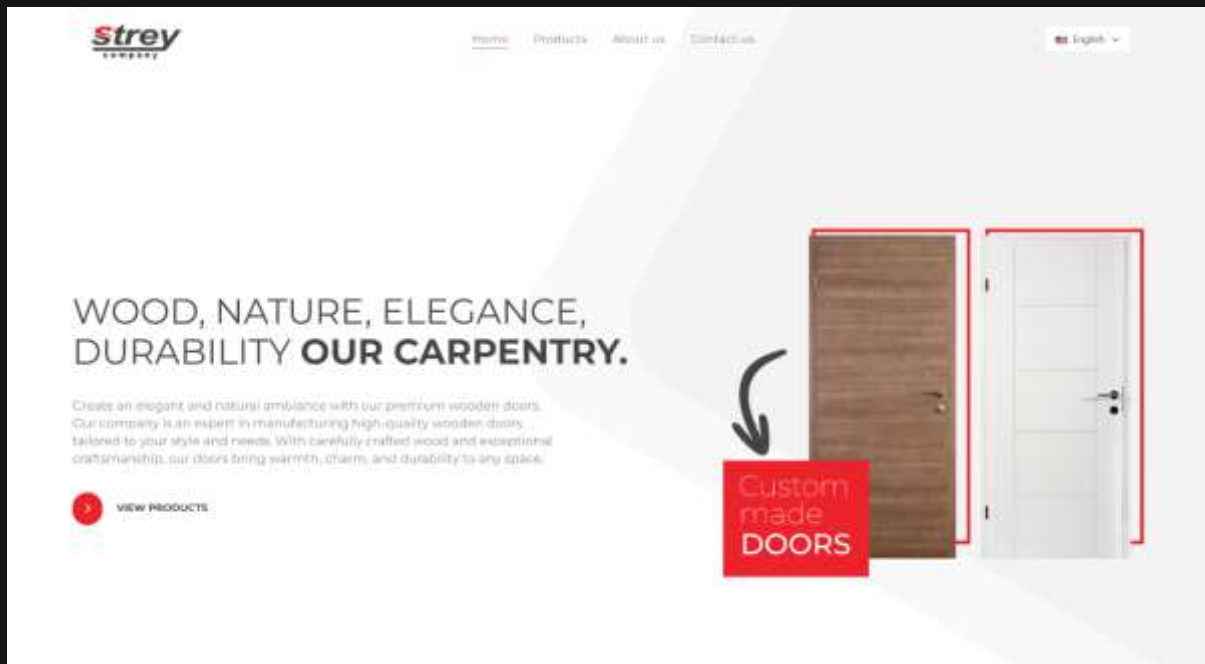

We guarantee you the best service, quality, and competitive prices. Enhance your home or business space with our latest door models from our collection!
